HASTER

Specialized LED lighting

HASTER®
Polish Lighting Manufacturer

Let your display dazzle. Enhance its visual appeal with HASTER professional lighting, dedicated to the jewelry and exhibition industry.

HASTER lightning:

- is more efficient than standard light sources
- very long service life of the led module- embedded led chips on a hard PCB
- provides high lightning parameters: Medium LED 2150 lumens/1mb Power LED 2600-4800 lumen/1mb.
- perfectly reflects the colors of the product
- LED sources are specially designed for exhibition industry, depending on the type of exposed products we use:

Choosing HASTER lightning you can be sure you are buying the highest quality lightning that will best expose your products - it is confirmed by specialist research and obtained quality certificates.

- ▶ **300K CRI 90+** (amber, colored stones, gold)
- ▶ **4000K CRI 90+** (gold, white gold, platinum, diamonds)
- ▶ **5000K CRI 90+** (diamonds)

RICO

Display
cabinet
system

► professional
jewellery
and exhibition
lighting

► hinged doors

► sliding doors

RICO is an innovative and flexible system of modular exhibition furniture, which you can quickly adapt to the needs of the presented exhibition and interior

Why RICO?

Because it gives many possibilities of arrangement. RICO display cases can be arranged individually, building coherent strings and exhibition islands from them. Thanks to a wide range of standard and non-standard decors, RICO display furniture is easy to adapt in color to the individual interior design.

Do you want to change the arrangement of furniture?

Move them to another place? Nothing could be simpler! You no longer have to hire an assembly team or replace furniture with new ones. The RICO display case is characterized by quick assembly and disassembly, so simple that you can make it practically yourself. Recent years have shown how quickly and drastically trading

conditions can change. Choose RICO display furniture to be able to move your store to another, convenient place for sales literally overnight. With RICO display furniture you will be flexible and independent in sales.

Glass display cases with or without lighting?

Properly selected and installed lighting makes the assortment visually more attractive and increases sales. The RICO display case system allows the installation of high-quality HASTER led lighting, dedicated to the jewelry and exhibition industry. Lighting can be selected in two colors - warm (ideal for gold, among others) or neutral (ideal for silver, platinum or diamonds, among others). HASTER led lighting is professional and durable - it does not lose its quality even for 50,000 hours of illumination.

► The use of display cases:

jewelry
showrooms

collectors

museums

for home use as
a showcase for
the living room
